
Ideal for public spaces including places of worship and schools

Quality finished and durably built for frequent use

Reliable hydraulic drive offers affordable accessibility

Customize to suit your needs up to 1400 lb capacity

Savaria® Prolift® VPL

RELIABLE COMMERCIAL ACCESS

The Savaria Prolift is a great choice for public spaces such as places of worship, schools and other public spaces where accessibility is needed. The durably constructed ADA-compliant lift operates with simple-to-use constant pressure from a hydraulic drive that delivers a smooth and quiet ride, making it feel like a traditional elevator. Choose the standard Prolift (SCL) or upgrade to the heavy duty (HD) design for heavier loads.

The fully enclosed interior features ceiling lighting, handrail and operating panel with emergency battery back-up for lighting and lowering. Choose from a selection of standard melamine finishes or plastic laminate walls. With features you need, the Savaria Prolift packs great value into a reliable accessibility lift.

Savaria® Prolift® VPL

RELIABLE COMMERCIAL ACCESS

- 1:2 cable hydraulic drive delivers reliable performance with a smooth and quiet ride
- Choose the load capacity for your needs from 750 lb to 1400 lb load[1]
- Configure entry/exit (including 90 degree), cab size and number of stops to fit your needs, up to 14' (USA), or 23' (Canada)
- Constant pressure operation with emergency back-up for lighting and lowering included
- Cab is finished in a choice of melamine, fire-rated melamine or plastic laminate[2]
- Hall call stations can be keyless or keyed for added security and finished in stainless steel
- Add fire-rated Pro doors with manual or automatic operation for landings; hinges, automatic door operator and door lock are concealed in the frame for a sleek look
- Automatic floor levelling, emergency stop and alarm included, handsfree telephone optional
- Can be configured for use as a casket lift (white steel cab panel only, as shown top left), or customized with options such as glass and stainless steel cab and doors (as shown bottom left)
