Wheelchair accessibility for home or public buildings over straight stairways

Folds up compactly when not in use leaving access to the stairs

Savaria® Delta Inclined Platform Lift

ACCESS OVER STRAIGHT STAIRS

The Savaria Delta inclined platform lift provides wheelchair access over straight stairs as it travels along a modular guide rail system. When not in use, the unit folds compactly to the wall, leaving access to the stairs. The Delta lift is a popular choice for churches, schools and homes with minimal construction needed for installation.

Battery operated with charging stations located at the top and bottom of the stairs, the lift continues to function even through a power failure. Choose from four platform sizes, including an ADA-compliant size, and select options such as a folding seat, automatic folding/unfolding or a public building package.
